Title: The Effects Of Class Advisers In Improving Students' Learning Outcomes And Integration In Tishk International University's Life.

Presenters:

1. Asst. Lecturer Muhammed Anwar, Computer Engineering, TIU
2. Asst. Lecturer Mohammed Abdulghani, Computer Engineering, TIU
3. Dr. Muhammed Ali Namuq, Petroleum and Mining Engineering, TIU
4. Asst. Lecturer Rozh Ismael Abdulmajed, Survey Engineering, TIU.

Abstract and Objectives:

Students are the most valuable assets in the university. Due to increasing number of private universities in the recent years, there is a competition to gain more students. University must take care of her students which can be done via class advisors in each department. However the student advisory is not active nowadays, so one of the objectives of the workshop is to activate class advisory. The workshop gathered all the class advisors to collect the information regarding the satisfaction of students in the university.

Intended audience:

25 attendees (on-campus)

Materials provided:

Presentations, notes paper, and pencils.

Rough Agenda:

1. Experience / impressions from meeting the students as a class advisor.
2. Preparations for the freshman year students.
3. Preparations for the senior year students, focusing on their graduation projects.
4. Recommendation for improving the class advisory at TIU.

Requirements:

1. Advise the students to follow the project timeline and due dates.
2. Arrange a workshop with the help of the dean of students to advice students who would like to study Master's degree after they finish their bachelor's degree
3. Advise the students about their career by providing help from TIU's career center.
